POWERHOUSE

DS 4 CONTINUOUS DUTY VACUUM

Experience ultimate power with Ruwac's DS4 Powerhouse Series Vacuums. Ideal for continuous cleanup applications, the DS4 Powerhouse Series can also be used as a central vacuum with multiple users. The powerful DS4 is engineered for continuous collection of heavy materials. Featuring 10, 20, and 30 HP motors, these vacuums remove heavy materials such as concrete dust, sugar, steel shot, sand, grains, fertilizer, and more. Even with all that power, the DS4 Series remains completely portable for ultimate versatility and maximum use.

Features & Benefits:

- Integrated silencers keep operation quiet during continuous use.
- All models include a pre-separation collections system with a 55 gallon capacity, forklift pockets and a self-contained tipping mechanism for effortless emptying.
- High Efficiency Cyclones can be added to any DS4 system to increase efficiency and drop 97% of debris out of the airstream before it hits the filters.
- Oversized, 118 ft² filters are 99.9% efficient at 0.5 micron and equipped with a motorized filter shaker to automatically clean filters and reduce replacement and maintenance time.
- Optional HEPA filters can be installed to ensure absolute filtration of sub-micron particles and toxic dust.
- More power allows for longer length and larger diameter hoses.
- DS4 Systems can be completely portable or skid-mounted for use as stationary systems.

Technical Data	DS 4110 Powerhouse	DS 4120 Powerhouse	DS 4130 Powerhouse
Voltage	230/460	230/460	230/460
Horsepower	10	20	30
Vacuum Pressure (Hg")	6.2	8.2	9
Air Movement (CFM)	575	600	850
Filter Area (ft ²)	118 ft ²	118 ft ²	118 ft ²
Inlet (in.)	4"	4"	4"
L x W x H (in.)	68 x 32 x 80	68 x 32 x 80	68 x 32 x 80

Specifications are subject to change without notice.

FEATURES

Tipping drum allows easy emptying without heavy lifting or messy spills

Extra large 4" inlet makes cleanup effortless, from sub micron dust particles to heavy material.

Self-contained tipping drum features heavy duty casters and forklift pockets.

Oversized filter allows large quantities of material to be filtered without loss of vacuum power.

Quickly empty 9 gallon dustpan after cleaning filters to reduce downtime and prevent clogging.
