	height	50.1" / 1273 mm
Interior Dimensions	length	41.75" / 1060 mm
	width	45.5" / 1156 mm
	height	44.75" / 1137 mm
	height to fill line	43.75" / 1111 mm
Collapsed Height		11" / 279.4 mm
Stack Height	Static	5
	Dynamic	2
Container Volume		52 ft <sup>3</sup> / 1.472 m <sup>3</sup>
Container Capacity (Dynamic)		1000 lb / 453.6 kg
Container Tare Weight		85 lb / 38.6 kg
Lid Tare Weight		9.8 lb / 4.4 kg
Return Ratio		4.5:1
Truckload Quantity (Collapsed)	48' lid/no lid	234/260
	53' high cube lid/no lid	252/280
Truckload Quantity (Open)	48' lid/no lid	52/52
	53' high cube lid/no lid	56/56
Pallet Fork Entry		4-way
Standard Color		White

All dimensions and specifications are approximate. Performance characteristics are based on uniform static loads and may be affected by concentrated loads and elevated temperatures. Materials and workmanship guaranteed for 3 years. Material: High Impact Polypropylene.

Maximize your payloads while lowering your shipping costs with the new MAX<sup>3</sup>™ returnable, collapsible container. The lighter-weight MAX<sup>3</sup> features maximum transportation cube efficiency and maximum interior volume, so you can ship up to 20% more product.

Engineered for strength and durability, the MAX<sup>3</sup> easily withstands the abuse of multiple return trips. It's also designed with a non-sequential folding action, collapsing easily to a 4.5 to 1 return ratio. On the production floor, the MAX<sup>3</sup> is dumping equipment compatible, readily incorporating into your current setup.

With smooth interior surfaces, and a lid to cover and protect contents, the MAX<sup>3</sup> ensures product cleanliness. It's also approved by the FDA as meeting sanitary requirements for packaging handling in food, beverage, and pharmaceutical applications.

RFID ready, and with a variety of logistics services options also available, the MAX<sup>3</sup> delivers value both today and well into the future. Call today for a free, on-site evaluation of how the MAX<sup>3</sup> can work for you.
